⚠️ **CAUTION!**

The specific frequency of electromagnetic field may affect correct works!

Supplied Accessories

When you unpack, check that all the supplied accessories are included:

- Network Controller.......................................………. 1PCS

- AC Power Adaptor.......................................……… 1PCS

Product Overview

Description

● Network keyboard covered with painted iron, high grade, The unique surface hardening can prevent scratches.

● Adopt industrial grade LCD modules, have better display.

● Support ONVIF protocol, good Compatibility, high Scalability, built-in web server, which made through configuration interface concise, easy to use, and easy to control the IP camera.
Product Features

Support ONVIF protocol.

Support offline search and add equipment.

Support multi-brand ip PTZ camera.

Support Operating presets patrols and patterns. Support setting the configuration parameters.

4D joystick

Connection diagram

The connection between the keyboard and the camera is in the same LAN, and ensure that network segment of IP address is consistent such as: 192.168.1.200 belong to the same network segment; At this point you need to modify the IP address of the keyboard or the camera. The default mode which keyboard gets IP is dynamically obtain.

There is a button at the back of the equipment press it up to the controller blink the light and restart.

Restart

After long time working, Select restart function to ensure the device get the proper maintenance.

Technical Specification

Power supply	DC12V-1A/ positive outside negative inside
RS485	3.81 pitch terminal ，TA,TB
RS232	Db9 male port
Ethernet	RJ45，IEEE 802.11b/g/n
Support protocol	Onvif 2.4
browser	IE 、 Firefox 、 Chrome 、 Safari and so on.
Work temperature	0°C~55°C / 14°F~131°F
Work humidity	20%~80%(frostless)
Storage Temperature	-10°C~60°C / 14°F~140°F
Storage humidity	0～90％(frostless)
Weight	3kg
certification	CE 、 FCC 、 RoHS
warranty	One year
